

Chameleon[®] MOVA 8

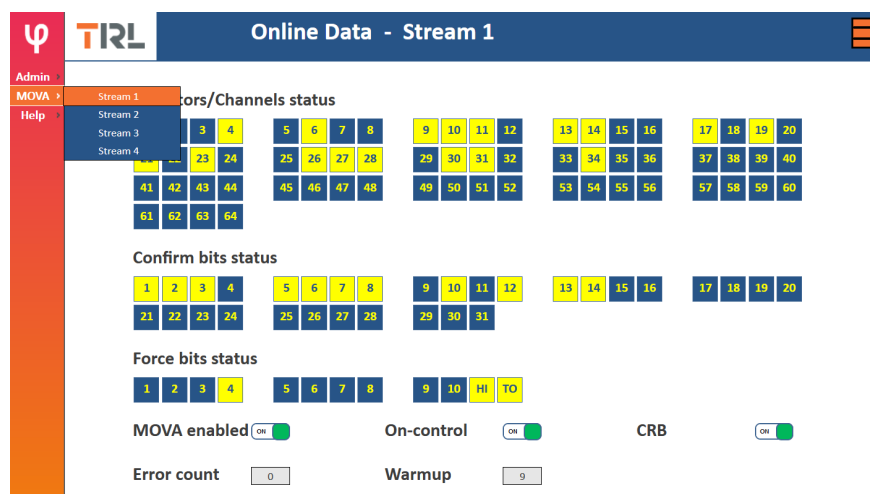

Dynniq's Chameleon outstation now has MOVA 8!

Main Features:

- The integration of the latest MOVA M8 kernel and the standard TRL MOVA web interface
- Improved web interface, with direct access to the command line terminal (no need for Telnet or SSH)
- Security enhancements, including the ability to change usernames and passwords through the web interface

Upgrading:

- There is no charge for the updated software.
- There is a TRL MOVA 8 license upgrade charge for existing MOVA 6 sites.
- New Chameleons are available with the latest software.
